

# JOSEPH MONTGOMERY

ELECTRICAL SUPERVISOR

## CURRENTLY WORKS:

Chester

## MY ROLE:

As an electrical supervisor, I undertake and positively contribute to all electrical installations on our projects, whilst demonstrating a high level of health and safety leadership. A key requirement of my role is ensuring that all project designs and installations meet our client's specifications.

## PROJECTS I'VE WORKED ON:

I've been involved with a variety of projects across the North West region during my time with NG Bailey. These include a hospital in Blackpool, a TV production complex in Manchester and a number of schools and hospitals. Being able to deliver projects like these on behalf of our clients is really rewarding.

“ For me it's the training opportunities that have been available to me, which have allowed me to grow both personally and professionally ”

## MY PROGRESSION WITH THE BUSINESS:

I started my career with NG Bailey as an apprentice five years ago and I'm really proud of the progress I've made and my achievements during my time here. My highlights include:

- Completion of my AM2 and apprenticeship
- Winning 'Apprentice of the Year' as a second year apprentice
- Taking first place at the North West regional heat of the SPARKS UK Electrical Apprentice of the Year awards 2016
- Taking second place at the National SPARKS UK Electrical Apprentice of the Year awards 2016
- Consistently achieving great feedback and ratings in my interim and year end reviews

## WHY I LIKE WORKING FOR NG BAILEY:

For me it's the training opportunities that have been available to me, which have allowed me to grow both personally and professionally. Since day one, I have felt like a valued member of a great team. I also believe the senior management team respect my input and are keen to help me develop my career path in a way that aligns with my aspirations.

## YOUR FUTURE

We have a number of exciting long term projects starting in the North West region and we're looking for talented M&E workers to join our award winning engineering team.
