

WILLIAM KING

Apprentice Project Engineer
Engineering, Bradford

"I ASSIST IN PROJECT PLANNING, PROBLEM-SOLVING, AND CONTRIBUTING TO THE OVERALL DELIVERY OF A PROJECT."

WHY DID YOU DECIDE TO JOIN NG BAILEY'S APPRENTICESHIP SCHEME?

I decided to apply for NG Bailey's apprenticeship programme because I was seeking a long-term career path and had always wanted to work as an engineer. Additionally, the opportunity to work on actual projects under the guidance of experienced engineers perfectly matched my career goal of becoming a project engineer.

HOW DID YOU FIND THE RECRUITMENT PROCESS?

The recruitment process at NG Bailey was thorough and insightful. Every stage, from the initial application to the interview, gave me the chance to show my interest in Engineering and showcase my previous experiences and skills.

IN YOUR APPRENTICESHIP, WHAT DOES A TYPICAL DAY LOOK LIKE FOR YOU?

As an apprentice engineer, I work closely with the project team. I assist in project planning, problem-solving, and contributing to the overall delivery of a project. I also engage in training sessions to enhance my technical and product knowledge.

WHAT HAS BEEN THE BIGGEST CHALLENGE IN YOUR APPRENTICESHIP?

The role can be quite challenging at times, balancing different tasks and timelines with regular problem-solving and adapting to a constantly changing environment and industry.

WHAT'S THE BEST THING ABOUT YOUR APPRENTICESHIP?

The best thing about my apprenticeship is having the chance to work alongside experts and being exposed to many different aspects of the business

and industry. The support given at NG Bailey creates an environment where I feel encouraged to ask questions and benefit from the wealth of knowledge my colleagues have.

WHAT DO YOU ENJOY MOST ABOUT WORKING FOR NG BAILEY?

For me, it's the supportive and motivating environment where others share knowledge and provide resources to help you succeed.

WHAT ADVICE WOULD YOU GIVE THOSE LOOKING TO JOIN THE INDUSTRY OR BECOME AN APPRENTICE?

For those looking to join the industry and become apprentices, my advice is always be willing to learn new skills and never be nervous to ask questions, no matter how ridiculous you may think they are.
